

17.0 ACKNOWLEDGMENTS; AGENCIES AND PERSONS CONSULTED

Amendment 10 was prepared and evaluated in consultation with the National Marine Fisheries Service and the Mid-Atlantic Fishery Management Council.

Much of the data, analysis, and graphics included in this document were the result of hard work, often under unreasonable time demands, by the employees of NMFS (Woods Hole and Gloucester), the Virginia Institute of Marine Science (VIMS, Gloucester Point, VA), and the MA Center for Marine Science and Technology (CMAST). Special thanks should go to Dr. Dvora Hart (NMFS), Dr. Julie Olsen (NMFS), Dr. David K. Stevenson, Dr. Jason Link, Louis A. Chiarella, C. Dianne Stephan, Dr. Robert N. Reid, and Dr. William DuPaul for their expert assistance in preparing the analyses and graphics in this document. Todd DuBois, from NMFS Law Enforcement Division in New Bedford, was instrumental in coordinating comments and writing the enforceability assessment. Doug Beach, working as a consultant to the Council, prepared draft material and analysis of the potential effects of scallop management on endangered and threatened species. Draft text and analyses were also contributed by technical staff members including Andrew Applegate, Demet Haksever, Patricia Fiorelli, Leslie-Ann McGee, Deirdre Valentine, Chad Demarest, and Edward Durbeck.
